

CLINICAL AESTHETICS: BUSINESS BUILDING

Whether you want to find a part-time job or open your own practice, you will need industry knowledge and networking to get started.

Join the founders of Inject with Lex to hear about their 10-year journey of building an award-winning, clinical aesthetics practice. Participate in an open Q&A and take the next step to reach your aesthetic practice goals.

Learn How to:

- Implement Best Business Practices
- Acquire treatment medications
- Protect your license and business - legal, compliance/regulatory
- Identify essential business service providers - accounting, software
- Explore the value of joining a clinical aesthetics professional association
- Network for Medical Director Leads

Hear from industry representatives offering support resources, including:

- Industry networks
- Social media presence
- Insurance coverage
- Associations/conferences/trainings
- Compliance and safety considerations
- Continuing education
- Employment assistance
- Business development
- Access to professional and patient marketing tools

Opportunities to further network with industry professionals

To successfully complete this program and receive Contact Hours, participants must register for the program, participate in the program and submit a completed evaluation.
